School District No. 46  
(Sunshine Coast)

To: Secondary Administration / Counsellors / Interested Students

RE: ACE-IT Applications

ACE-IT Programs are offered in partnership between the Sunshine Coast School District and Vancouver Island University (VIU). These programs provide a unique opportunity to work under a person with Red Seal credentials to gain both high school credentials and VIU Level 1 status for the given program. Please go to SD46 ACE IT web site at [www.sd46.bc.ca](http://www.sd46.bc.ca) (under Programs and Services) to obtain the latest brochure/program overview.

Many students at your school have expressed interest in ACE-IT programs in either:

- Carpentry
- Professional Cook
- Automotive Technician

We are taking applications now for those students that are committed to take either program starting in September for Automotive / Pro Cook and February for Carpentry / Pro Cook.

This is the beginning of the registration process to determine which programs will run based on numbers of committed registering applicants, space, and available funding.

Applications will be date stamped and students are accepted into the program based on:

- meeting VIU pre-admission exam requirements and date of application.
- other requirements as described in the program overview

Space is limited and so please get your application in as soon as possible. Initial deadline submission date is June.

If you have any questions please contact either Rick Gibb or Phil Luporini. Please see contact information below.

Thank you.
