

School District No. 46 (Sunshine Coast)

## Governance Policies

### 5.0 HEALTH, SAFETY AND THE ENVIRONMENT

#### 5.1 LIFE THREATENING ALLERGIES

The Board of Education of School District No. 46 believes it has a responsibility to provide a safe environment for children with life-threatening allergies. Every reasonable effort should be made to minimize risk, and allow the anaphylactic child (and other children with serious allergies) to attend school with relative confidence.
